CNC Machining

ADVANCED CNC MACHINING, AND CONVENTIONAL MANUFACTURING CAPABILITIES

Ameri-Source™ Specialty Products

has recently expanded into CNC metal machining. Well known for machined graphite, electrodes and as a stainless steel supplier, we're excited to expand and offer metal machining services to our customers. Ameri-Source™ is constantly exploring new opportunities to fulfill demand such as machined metal CO2 extraction devices in this specialized market. The 20,000 square foot, heat-controlled facility is located in the Bethel Park Industrial Complex, at 3200 Industrial Boulevard. Our facilities are in close proximity with easy accessibility for supplier deliveries and shipments. We're located 9 miles southeast of Pittsburgh, and within minutes of Interstates 79, 43, 376, and Route 51. Ameri-Source™ is continuing to expand its position in the heart of the Marcellus and Utica gas/oil shale plays and within a 1-2 hours' drive to many of the coal, limestone and salt mines in PA, OH, and WV.

About us

Ameri-Source™ Specialty Products is positioned to make capital investments necessary for long-term commitments on large runs with our customers. These investments/partnerships help both parties optimize future growth and success.

Our commitment to you is total customer satisfaction by understanding the scope of your job, providing competitive pricing, delivering quality work, and ensuring short reasonable lead times.

Quality is our goal and a major consideration for customers when choosing a machining company. Our highly skilled operators can produce finished parts to the exact tolerances our customers demand. We pride ourselves in satisfying customer requirements with parts that arrive on time with zero defects. What sets Ameri-Source™ apart from other machine shops is our ability to take on larger milling and turning jobs.

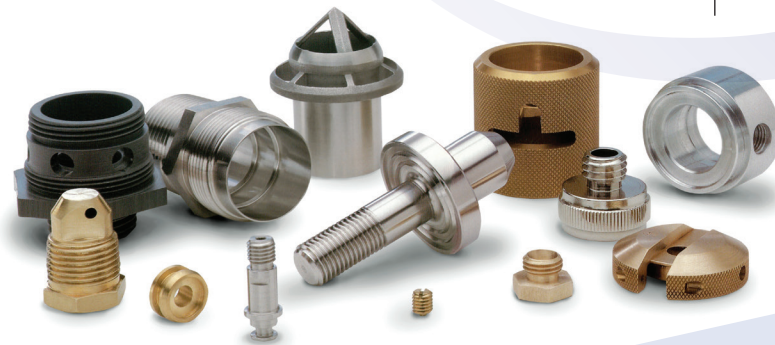

*The Ameri-Source team of
professionals is ready to
discuss your needs and meet
your manufacturing objectives.*

The Benefits of Working with Ameri-Source™

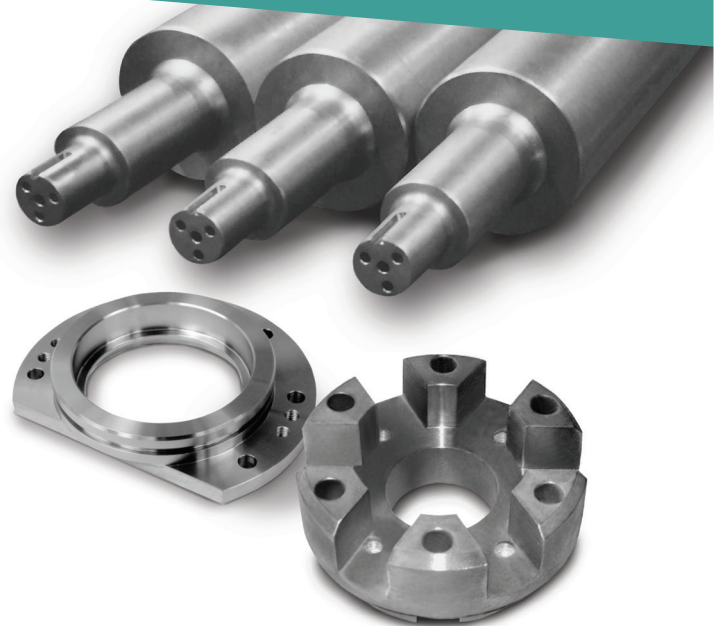

- A proven solutions-focused approach
- Constant review of current and future technological developments
- CNC capabilities ensuring consistent OEM, spare, and replacement parts
- A complete line of conventional manual machines for jobs that require special tasks on low volume parts
- Operator cross-training and continuing education
- Blanket order programs and steady shipments available when you need them
- On-site quality assurance inspections
- One reliable source for all your on-site machining

Our Promise

- A friendly staff and sales team
- Total customer commitment
- Lead time accuracy
- Quality finished parts
- Customer satisfaction
- Over 25 years combined experience in the industry
- Regular companywide procedure audits
- Vendor performance reviews

Ameri-Source is committed to continually improving the services and quality of work offered to our customers by meeting and exceeding your expectations.

Our Capabilities

- Precision machining including: Milling, Turning, Grinding
- Cutting
- Plating
- Hard turning
- Short run production
- Long run production
- Solidworks, MasterCam, and GibbsCam software
